Fern Plastic Products Ltd – Environmental Policy

Our policy is to fully comply with both the limits set by our EMS and all applicable compliance obligations, to reduce the environmental impact of our activities, products and services and to continually strive to improve environmental performance.

We aim to:

- Comply with all applicable compliance obligations relevant to our activities, products and services.
- Protect the environment through pollution prevention.
- Minimise the use of raw materials.
- Reduce energy consumption.
- Minimise our waste by re-cycling where possible.
- Commit to continual improvement of the environmental management system to enhance our environmental performance.

To achieve this, we have implemented an environmental management system in accordance with the requirements of ISO 14001:2015.

We will ensure that all personnel involved in its operations have the appropriate training and awareness, so that each individual concerned understands the environmental aspects and impacts of his/her responsibilities and complies with the operational procedures laid down, to minimise the environmental impact of their activities, prevent pollution and ensure compliance obligations are met.

It is the responsibility of our employees to support the environmental policy and procedures pertaining to their activities within the company.

This policy is consistent also with general corporate policy.

Managing Director
